PIGMENTO

Pigmento is a porcelain stoneware collection that celebrates colour. The delicate effect of its matt surfaces and the richness of its hues generate over 60 different faces for each of the 10 colours in the collection.

Pigmento's infinite colour combinations are a challenge to creativity, while its decisive tone variation makes every monochrome background a mosaic of different shades.

The Lustrò decoration adds a gloss finish to the colour to create a scattered inlay of light points and tone-on-tone patterns.

Pigmento è una collezione in gres porcellanato che celebra il colore. Il delicato andamento della superficie opaca e la ricchezza dei toni cromatici generano oltre 60 facce diverse per ciascuno dei 10 colori della collezione.

Le infinite combinazioni di colore di Pigmento rappresentano una sfida per la creatività, mentre la sua decisa stonalizzazione fa di ogni campitura monocroma un mosaico di sfumature.

Il decoro Lustrò stende sul colore un velo lucido, per innesti di luce sparsi o per disegni tono su tono.
