## bosphorus limestone

The Bosphorus Limestone Tile Collection is a finely-crafted blend of contemporary designs and ancient materials. Elongated shapes, hexagonal mosaics and versatile elegant moldings bring this collection to life. Our Bosphorus tiles have a deeply rich color meant to enhance steady and strong design themes. A reference to the iconic Bosphorus strait of Istanbul, the rich deep brown of this collection evokes history and antiquity. Located between the continents of Europe and Asia, this iconic strait has been the foundation for many civilizations and cultural traditions. A sedimentary rock, limestone has long been a mainstay in architecture due to its beauty and utility. From the Pyramids of Giza to the Lincoln Memorial, it has formed some of the most iconic buildings in the world. The Bosphorus Limestone Tile Collection is perfect for backsplashes and all interior walls and floors.
