limestone collection

MARBLE SYSTEMS

champagne

The Champagne Limestone Tile Collection blends the clean lines and modularity of the contemporary lifestyle. A wonderful color palette comprised of distinct yet neutral colorations and a finely honed/semi-polished surface sets the foundation for a unique design spectrum for residential and commercial applications. Embellishments to this collection include linear/geometric mosaics in blends from the color palette. For the finishing touch, one may select from mouldings in a variety of shapes. The Limestone Collection is a harmony of tonality and design for today's lifestyles.

Limestone is a sedimentary rock. It has historically been used in Europe and throughout the world as a natural building material. The material has enjoyed a great deal of utility in architecture. Consider The Great Pyramid of Giza, for example. Elongated shapes, hexagonal mosaics and versatile elegant molding profiles bring this collection to life.

Usage

- Residential Interior Floors / Walls
- Commercial Interior Floors / Walls
- Shower Floors / Walls
- Backsplash

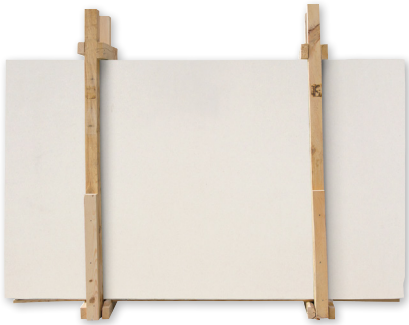

V2 - Slight Variation: Clearly distinguishable differences in texture and/or pattern within similar colors.
